The Fall of the West: The Slow Death of the Roman Superpower

Adrian Keith Goldsworthy

The Fall of the West: The Slow Death of the Roman Superpower Adrian Keith Goldsworthy

A sweeping narrative of the decline and fall of the Roman Empire. The Fall of the Roman Empire has been a best-selling subject since the 18th century. Since then, over 200 very diverse reasons have been advocated for the collapse of the western half of the Roman Empire. Until very recently, the academic view embarrassedly downplayed the violence and destruction, in an attempt to provide a more urbane account of late antiquity: barbarian invasions were mistakenly described as the movement of peoples. It was all painfully tame and civilised. But now Adrian Goldsworthy comes forward with his trademark combination of clear narrative, common sense, and a thorough mastery of the sources. In telling the story from start to finish, he rescues the era from the diffident and mealy-mouthed: this is a red-blooded account of aggressive barbarian attacks, palace coups, scheming courtiers and corrupt emperors who set the bar for excess. It is 'old fashioned history' in the best sense: an accessible narrative with colourful characters whose story reveals the true reasons for the fall of Rome.
