If you enjoy Warhammer 40k or the Black Library, you will love this grimly funny dystopian future. There are Doctor Who references galore, androids, half-human drones, railguns, tanks, grunt GIs, freaky aliens, psionic powers, hovercars, brains in jars, flying circuses, underwater cities, razorwire planets! Set in 2346, the Stellar Kingdom rules the galaxy (Great Britain won WWII), and this novel is full of scifi and Doctor Who in-jokes.

Sebastian Coventry is a weapons tester for the Royal Technocracy of Earth. He is plagued by a depraved voice in his head pushing him to violence. When he destroys a cybernetic half-human half-machine drone that is revealed as an ex-soldier, Coventry's quest for answers plunges him into a hardcore military scifi adventure unearthing his own secrets, an outrageous space privateer, an alien pact, and the invasion of the entire Stellar Kingdom!

This is a rollercoaster ride of gun-totin', death-dealin' hard-frakking-core military science fiction and Part 1 of the 'Manifest Destiny Cycle.' Lock your autolaser on target and download this book now ... 1000 downloads already in six weeks!
