Opportunistic Mobile Social Networks

Opportunistic Mobile Social Networks

The widespread availability of mobile devices along with recent advancements in networking capabilities make opportunistic mobile social networks (MSNs) one of the most promising technologies for next-generation mobile applications. **Opportunistic Mobile Social Networks** supplies a new perspective of these networks that can help you enhance spontaneous interaction and communication among users that opportunistically encounter each other, without additional infrastructure support.

The book explores recent developments in the theoretical, algorithmic, and application-based aspects of opportunistic MSNs. It presents the motivation behind opportunistic MSNs, describes their underpinning and key concepts, and also explores ongoing research.

- Supplies a systematic study of the constrained information flow problem
- Reviews the recent literature on social influence in complex social networks
- Presents a complete overview of the fundamental characteristics of link-level connectivity in opportunistic networks
- Explains how mobility and dynamic network structure impact the processing capacity of opportunistic MSNs for cloud applications
- Provides a comprehensive overview of the routing schemes proposed in opportunistic MSNs

Taking an in-depth look at multicast protocols, the book explains how to provide pervasive data access to mobile users without the support of cellular or Internet infrastructures. Considering privacy and security issues, it surveys a collection of cutting-edge approaches for minimizing privacy leakage during opportunistic user profile exchange.

The book concludes by introducing a framework for mobile peer rating using a multi-dimensional metric scheme based on encounter and location testing. It also explains how to develop a network emulation test bed for validating the efficient operation of opportunistic network applications and protocols in scenarios that involve both node mobility and wireless communication.

From reader reviews:

Joseph Chandler:

Nowadays reading books become more than want or need but also be a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book that will improve your knowledge and information. The information you get based on what kind of guide you read, if you want get more knowledge just go with training books but if you want experience happy read one using theme for entertaining such as comic or novel. The actual Opportunistic Mobile Social Networks is kind of guide which is giving the reader unpredictable experience.

Victoria Owen:

Reading a e-book tends to be new life style in this era globalization. With looking at you can get a lot of information that can give you benefit in your life. With book everyone in this world may share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their own reader with their story or their experience. Not only the story that share in the publications. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors on earth always try to improve their ability in writing, they also doing some research before they write to their book. One of them is this Opportunistic Mobile Social Networks.

Paul Queen:

The reserve with title Opportunistic Mobile Social Networks possesses a lot of information that you can understand it. You can get a lot of help after read this book. This book exist new knowledge the information that exist in this reserve represented the condition of the world at this point. That is important to yo7u to understand how the improvement of the world. That book will bring you within new era of the internationalization. You can read the e-book on your smart phone, so you can read the idea anywhere you want.

Kim Free:

Many people spending their time frame by playing outside with friends, fun activity with family or just watching TV all day long. You can have new activity to spend your whole day by reading a book. Ugh, do you think reading a book can definitely hard because you have to accept the book everywhere? It alright you can have the e-book, bringing everywhere you want in your Smartphone. Like Opportunistic Mobile Social Networks which is obtaining the e-book version. So , why not try out this book? Let's find.
