## **Advisory Committee on Human Radiation Experiments: Final Report** Usgp

Describes the intersection of the developments of radiation science, medical research, and government programs. Explores how both Federal agencies and the medical profession approached human experimentation from 1944 to 1974. Approaches particular experiments from several angles, each of which raises overlapping ethical questions. Reports the findings of the Advisory Committee's three inquiries into the present experimental policy. Concludes with the Committee's findings and recommendations
