Number Words and Number Symbols,

Karl Menninger

Number Words and Number Symbols, Karl Menninger

This book provides an introduction to the concept of number and to numbers themselves . It contains an linguistic and historical analysis of how numbers have developed and evolved in many different cultures. Karl Menninger draws on evidence from history, literature, philosophy and ethnology and recounts the development of numbers both as they are spoken (and written as words) and as symbolic abstract numerals that can be readily manipulated and combined.
