At first glance one may wonder how qualified were the two young men who set off from a Texas border town bound for Mexico City in 1931. The author, Joseph Goodwin was a Yankee with an itchy foot and a taste for peril. In contrast to this homespun hero was his companion, Robert Horiguichi, the sophisticated, multi-lingual son of an imperial Japanese diplomat. To say these two mismatched, would-be equestrian explorers were unprepared for the deserts, quicksand and brigands they encountered in the Mexican wilderness would be a mild understatement. Luckily before leaving the Lone Star state they had procured what they believed were all the necessities for explorers, including a canteen, an old pistol, and a typewriter to chronicle their soon-to-be-famous equestrian escapades. Along with their mustangs, Pistole and Negra, the amateur adventurers set out to prove that the dangers of the road were as welcome as the pleasures, something for which they did not have to wait long to discover. In one particularly harrowing episode, they were surrounded, shot, and nearly kidnapped by an armed band of Mexican bandits. "Through Mexico on Horseback" is thus both a stirring tale of high adventure, as well as a look back at a more innocent time in a now-bygone world.
