Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology)

Current research in Visual Database Systems can be characterized by scalability, multi-modality of interaction, and higher semantic levels of data. Visual interfaces that allow users to interact with large databases must scale to web and distributed applications. Interaction with databases must employ multiple and more diversified interaction modalities, such as speech and gesture, in addition to visual exploitation. Finally, the basic elements managed in modern databases are rapidly evolving, from text, images, sound, and video, to compositions and now annotations of these media, thus incorporating ever-higher levels and different facets of semantics.

In addition to visual interfaces and multimedia databases, *Visual and Multimedia Information Management* includes research in the following areas:

- Speech and aural interfaces to databases;
- Visualization of web applications and database structure;
- Annotation and retrieval of image databases;
- Visual querying in geographical information systems;
- Video databases; and
- Virtual environment and modeling of complex shapes.

Visual and Multimedia Information Management comprises the proceedings of the sixth International Conference on Visual Database Systems, which was sponsored by the International Federation for Information Processing (IFIP), and held in Brisbane, Australia, in May 2002.

This volume will be essential for researchers in the field of management of visual and multimedia information, as well as for industrial practitioners concerned with building IT products for managing visual and multimedia information.

From reader reviews:

Brent Cook:

The book Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) can give more knowledge and information about everything you want. So just why must we leave the good thing like a book Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology)? A number of you have a different opinion about book. But one aim that book can give many data for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or information that you take for that, you can give for each other; you can share all of these. Book Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) has simple shape however, you know: it has great and big function for you. You can search the enormous world by open up and read a e-book. So it is very wonderful.

Jerry Carley:

The knowledge that you get from Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) may be the more deep you looking the information that hide into the words the more you get serious about reading it. It does not mean that this book is hard to know but Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) giving you enjoyment feeling of reading. The article author conveys their point in specific way that can be understood through anyone who read the idea because the author of this book is well-known enough. This book also makes your vocabulary increase well. That makes it easy to understand then can go along with you, both in printed or e-book style are available. We suggest you for having that Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) instantly.

Maritza Kress:

Would you one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Aim to pick one book that you find out the inside because don't assess book by its handle may doesn't work this is difficult job because you are scared that the inside maybe not since fantastic as in the outside appear likes. Maybe you answer could be Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) why because the great cover that make you consider concerning the content will not disappoint an individual. The inside or content is usually fantastic as the outside as well as cover. Your reading 6th sense will directly show you to pick up this book.

Darla Kemp:

It is possible to spend your free time to read this book this e-book. This Visual and Multimedia Information Management: IFIP TC2/WG2.6 Sixth Working Conference on Visual Database Systems May 29-31, 2012 Brisbane, Australia ... in Information and Communication Technology) is simple to deliver you can read it in the park, in the beach, train in addition to soon. If you did not possess much space to bring often the printed book, you can buy the actual e-book. It is make you much easier to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
