No matter what kind of house you have, what shape your rooms are, or what kind of furniture you own, it seems that there are always bumps in the road when it comes to the furniture.

Either you find furniture that is too long one way, not quite long enough another way, or all together the wrong shape. We have all been there, and it isn't a fun ride no matter what you try to do about it. So time after time you are left wondering what you are going to do with your space.

You can't change the shape of your yard or patio, and there certainly isn't a way to change the shape of your rooms, so you have to work around this with the furniture you buy. Unfortunately, this can get tough when you are working with a specific budget and have no idea where to begin looking.

That is where this book comes in. In it I am going to show you just what you need to make your own modular furniture. Which means you are going to have the power to make it just as you want it, where you want it, with no questions, problems, or objections to get in your way.
