The Post-American Presidency: The Obama Administration's War on America Pamela Geller, Robert Spencer

Popular conservative blogger Pamela Geller and New York Times bestselling author Robert Spencer sound a wake-up call for Americans to stop the Obama administration from limiting our hard-won freedoms, silencing our democratic voices, and harming America for generations to come—now available in paperback.

America is being tested in a way that she has never been tested before. Since taking the oath of office in January 2009, President Barack Obama has cheered our enemies and demoralized our allies. He is hard at work “remaking” America by destroying the free-market system and nationalizing major segments of our economy, demonizing dissent and restricting freedom of speech, turning against our longtime friends, and above all, subjecting us to the determinations of foreign authorities. In this timely and urgent battle cry, Pamela Geller, founder of the widely popular website AtlasShrugs.com, and bestselling author Robert Spencer team up to expose the Obama administration’s destructive agenda—largely ignored by the mainstream media—and rally Americans to protect the sovereignty of a country that is under siege. Geller and Spencer critically examine the Obama administration’s ominous and revealing moves against our basic freedoms, particularly as he seizes control of the three engines of the American economy: health care, energy, and education. *The Post-American Presidency* is a vital guide to helping conservatives prepare for the tough battles ahead.
