## **Beyond Hope: Closing in on the Cure for Cancer** Diane Karchner

Diane survived cancer forty years ago, one of a few who did. With decades of advancements, cancer is still taking lives, including her sister's in 2008. This book is a memoir of both - of survival and loss, of hope and defeat. But more than that it is a search into why, even in her loss, she has faith that there will be a cure for all cancers in her lifetime. Jump into her story as she weaves in what used to be with the seeming miraculous advances that have been made since her cure. Her contagious belief that the cure is within reach will encourage and inspire all who battle the disease, who know someone who has, and who seek an end to this disease.
