The Exodus series chronicles mankind's reach for the stars. Through memorable characters and fast paced drama, the story begins with the construction of an interstellar ship capable of crossing uncharted space. Set in the near future, "Exodus of Light" is twenty years over deadline and construction crews are under pressure to complete the ship. Human nature coupled with financial incentives for the construction "Mechs" combine to create an explosive situation.

Siting mid-way between hard and soft science fiction, this first installment follows building tension with deeply human characters; Mech crew leader Happy Jack, his roommate Biggs, Biggs' girlfriend Rosie, a shuttle pilot and a young cadet.

The next series chapter "Launch" tracks some of the same characters as Exodus begins her one thousand year journey. Large enough to hold a crew of five thousand, later installments visit this self-contained society as it travels through space and across time, examining how the society of this isolated crew evolves. Full of drama, intrigue and fast-paced action, the Exodus series delivers deeply flawed characters combining the best and worst humanity has to offer.
