Image Analysis and Recognition

Image Analysis and Recognition

ICIAR 2004, the International Conference on Image Analysis and Recognition, was the first ICIAR conference, and was held in Porto, Portugal. ICIAR will be organized annually, and will alternate between Europe and North America. ICIAR 2005 will take place in Toronto, Ontario, Canada. The idea of offering these conferences came as a result of discussion between researchers in Portugal and Canada to encourage collaboration and exchange, mainly between these two countries, but also with the open participation of other countries, addressing recent advances in theory, methodology and applications. The response to the call for papers for ICIAR 2004 was very positive. From 316 full papers submitted, 210 were accepted (97 oral presentations, and 113 - posters). The review process was carried out by the Program Committee members and other reviewers; all are experts in various image analysis and recognition areas. Each paper was reviewed by at least two reviewing parties. The high quality of the papers in these proceedings is attributed first to the authors, and second to the quality of the reviews provided by the experts. We would like to thank the authors for responding to our call, and we wholeheartedly thank the reviewers for their excellent work in such a short amount of time. We are especially indebted to the Program Committee for their efforts that allowed us to set up this publication. We were very pleased to be able to include in the conference, Prof. Murat Kunt from the Swiss Federal Institute of Technology, and Prof. Mario Figueiredo, of the Instituto Superior Técnico, in Portugal.

From reader reviews:

Natalie Hernandez:

As people who live in the particular modest era should be upgrade about what going on or details even knowledge to make these keep up with the era which can be always change and make progress. Some of you maybe may update themselves by examining books. It is a good choice to suit your needs but the problems coming to anyone is you don't know which you should start with. This Image Analysis and Recognition is our recommendation to make you keep up with the world. Why, because this book serves what you want and want in this era.

Dolores Stiger:

Reading a guide tends to be new life style within this era globalization. With studying you can get a lot of information which will give you benefit in your life. Using book everyone in this world can easily share their idea. Books can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or perhaps their experience. Not only the storyplot that share in the publications. But also they write about advantage about something that you need example of this. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors in this world always try to improve their ability in writing, they also doing some analysis before they write to their book. One of them is this Image Analysis and Recognition.

Robert Johnson:

You can spend your free time to see this book this book. This Image Analysis and Recognition is simple to create you can read it in the recreation area, in the beach, train in addition to soon. If you did not possess much space to bring often the printed book, you can buy the actual e-book. It is make you simpler to read it. You can save typically the book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Noel Klein:

Many people said that they feel bored stiff when they reading a guide. They are directly felt that when they get a half areas of the book. You can choose the actual book Image Analysis and Recognition to make your reading is interesting. Your current skill of reading ability is developing when you including reading. Try to choose easy book to make you enjoy to study it and mingle the feeling about book and looking at especially. It is to be very first opinion for you to like to available a book and examine it. Beside that the reserve Image Analysis and Recognition can to be a newly purchased friend when you're feel alone and confuse with what must you're doing of that time.
