Lockheed Blackbird Family: A-12, YF-12, D-21/M-21 & SR-71 Photo Scrapbook Tony Landis

Still the world's most popular and most exciting aircraft, the Lockheed family of A-12, YF-12, D-21/M-21, and SR-71 Blackbirds are to this day the highest-performance jet-powered airplanes ever flown. They have set numerous world speed and altitude records for manned aircraft powered by air-breathing engines that theoretically may never be broken. Although no longer operational, A-12s and SR-71s flew for nearly three decades at speeds in excess of Mach 3 and altitudes of up to 90,000 feet. Expanding on the successful sales of all Specialty Press Blackbird publications is this natural extension of our product line created by compiling many never-before-published photos coupled with new de-classified information recently released by the CIA, including black-and-white and color photos of A-12 cockpits, early camera installations, and never-before-seen special camouflage schemes.
